STANDARDS OF LIVING

The world is being surfeited with bunk,

Never before in the history of our country was there such a deluge of half-baked theorists, and never before did wild-eyed theories make such efforts to put their vagaries in force and effect.

There are treacherous theories of sociology, of government, of economics, of religion, and their protagonists are all moving heaven and earth to have them accepted and made effective in the nation and in the lives of the people.

It matters not that these theories can find no basis in reason or in fact—that they lead to dangerous consequences, and the overturn of our time tried institutions—their authors and supporters are tireless in spreading propaganda for their acceptance.

Already evil results are apparent. Socialistic planks have been jammed in the Democratic machine of government. These are in shape of Federal and State enactments that effects competition and capital, labor. The passage of limiting acts makes necessary other acts of control, and these are all inimical to free and fair competition, and invade human rights. It is only by the widest stretch of our Constitution that acts of these kinds can be put on our law books, and yet they are there and they are dangerous.

When the Sherman anti-trust law was passed it should have been amended or so written as to make illegal certain combinations of labor as well as combinations of capital. No man should have the right, in his own selfish interests, to jeopardize the rights and comforts of others.

But this was not done, and out of it has grown a great host of abuses and dangers. And now we have other theories and proposals that will but add to the present troubles, if they are adopted, as it seems they may be. The government of the United States should not engage in business or limit and hamper business and production. Government should simply see to it that the competitive game is played straight and above board.

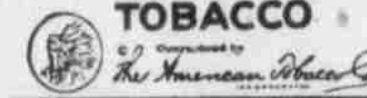

Every man is entitled to a just reward for his labor and no more. It matters not whether he is a day laborer, a professional man or captain of industry or transportation, he should have compensation commensurate with his performance. It is the only fair thing.

It is ridiculous to talk about a National standard of living, or of a class standard. A man is entitled to the kind of living he earns and no more. One man may put in long hours of faithful, sensibly applied toil, and another may work short hours, but in a shiftless, trifling way, working entirely from his shoulders down, and who will say high standard of living? To arbitrarily give this a comfortable living for

his work, is to rob some other man of his just deserts.

Men living in an elemental way enjoy what they produce—no more and no less. If they fail to work honestly and sensibly, they suffer the consequences. They must go without things that other and better men have in abundance.

The same rules that apply in elemental life must necessarily apply in the most complex life. The underlying principles are the same. This nation is but a large family and the same general economic rules that govern family or tribal life must govern our national life. We cannot consistently have more than we produce. For a time we might exchange our precious metals and gems and secure from foreign countries goods in excess of our own production, but there is a limit on this kind of proceedings. By and large, we can depend on securing prime resources may give us. Hence, every man must be limited to the production he causes in his living. If he is shiftless and produces little, "standards of living" arbitrarily set up to the contrary notwithstanding.

Neither should any set of men attempt to get up a standard of living out of proportion to their production and insist that they are to have that kind of living regardless of how such a standard forces other men to live.

At present certain workers belonging to organized craft are strenuously insisting that their wages must be kept up to the point where they can live according to the "American standard," whatever that may be. This standard, as we understand it, is about on the same basis as royal living in European countries. It means high home comforts, motor cars, theaters, silk shirts, silk socks, etc. And this wage is to be made possible by raising the price the public must pay for the services of these workers—and this public that is expected to pay the piper is getting much less than even half a frugal living. In fact, many men who are receiving but little more for a day's work than the craftsmen receive per hour, are to make up the difference out of their own scant dole.

Is it right to do this thing—to rob the man getting from \$1 to \$1.50 per day—to pay another man doing like kind of work at 50 cents to \$1.00 per hour? And

that is what the proponents of the "American standard of living" mean. It was one thing awhile ago to support a few idle rich at the expense of the public, and it is another thing now to support these same rich and a third of the rest of humanity at the expense of the unorganized masses.

Newspapers should organize and cut out pernicious propaganda. This space might be better used in promoting patriotism and a better understanding of our own government, the objects and purposes of its founders, and better knowledge of the essentials of political economy.—Courier-Chronicle Humboldt

Garden Notes

Now is the time to start to have early ripe tomatoes. If you set out and early variety you can hasten the ripening of the fruit and have larger fruits by keeping every limb cut off and keeping the main stem tied to a stake, tying it up as it grows, about every ten days. If you have not set an early variety of tomatoes the same plan will make earlier and better tomatoes, just the same. And if one wants good large tomatoes through the season he can have them only by setting another row about June 1. We planted a paper of Ponderosa and a paper of Golden Queen last week and the plants are just up. These will be set out about June 1 and should give us big tomatoes till frost, while the early vines will bear a good crop of big ones and the lot of small ones later.

When the crop of strawberries is off the vines now very soon berry growers will destroy hundred of plants. These are good for setting out and every family not having a few rows would do well to set out some. Set now they will bear a big crop next year, set in the fall they will bear a small crop next year. We set a few rows of Dunlaps in March and they are worked out and growing nicely. We will set out a few Excelsior (extra early) and a few Aroma (very late) in the next two weeks, and the three should give us berries from earliest to the latest.

Don't forget the succession of snap beans and roasting ears. After the middle of June we can have both every day till frost if we will just keep planting each ten days or two weeks.

This is right in the midst of the sweet potato transplanting season. The Falcon office has sold nearly 36,000 plants the past three weeks. And we have them for some time yet.

Plant celery seed now if you expect to raised a crop this year. The home raised is far superior to that bought from the regular celery growers.

The Irish potato crop in this section will be far short of its average and we must make up for it by planting a big late crop. Lookout Mountain is the safest for a good crop in the fall always, but the Triumph is better when it does hit. We plant a few rows of each of these varieties every year, and will this year. The last of June is about the time for planting Lookout Mountains, and on till middle of August.

Have you planted the watermelon and canteloupe patch? The kiddies should have them without fail, and the grown-ups enjoy them too.

We are planting a paper of Georgia Collard seed this week and will grow a few rows. They take the place of winter cabbage if we fail on the cabbage and are first class in winter and are fine keepers.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for emergency. Sold by Price Drug Co. adv.

Notice To Creditors

Having qualified as Executor of the Estate of D. D. Mays, deceased, in the County Court of Fayette County, Tennessee, on the 9th day of May, 1921, all parties having claims against said estate are hereby notified and required to file their claims with the County Court Clerk of said County in the manner and within the time required by law duly authenticated, or the same will be forever barred.

This May 9th, 1921. 6-3
(MISS) EMMA MAYS, EX'X,
Dancyville, Tenn.

Dizziness, vertigo, (blind staggers) shallow complexion, flatal nec are symptoms of a torpid liver. No one can feel well while the liver is inactive. HERBINE is a powerful liver stimulant. A dose or two will cause all bilious symptoms to disappear. Try it. Sold by Price Drug Co. adv.

Strawberry Growers Attention

Everyone interest in bettering his own his neighbor or his community interest is invited to meet with us in the town of Oakland at 3 p. m. Saturday, May, 21.

Especially do we invite the people of Macon, Warren, and Hickory Withe and all from the adjacent territory who would use Oakland as their shipping point.

Other sections of our state are this year reaping rich reward at this time while in our county of Fayette one might think from daily communication that we might be living in one corner of starving China.

Object of meeting to discuss strawberry growing.

About Rheumatism

People are learning that it is only a waste of time and money to take medicine internally for chronic and muscular rheumatism, and about ninety-nine out of a hundred cases are one or the other of these varieties. All that is really necessary to afford relief is to apply Chamberlain's Liniment freely. Try it. It costs but 35 cents per bottle. Large size 60 cents. adv.

As a general rule all you need to do is to adopt a diet suited to your age and occupation and to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets. adv.

Suggestions for Camping Trip

Buy a bottle of Chamberlain's Colic and Diarrhoea Remedy before leaving home. As a rule it cannot be obtained when on a hunting, fishing or prospecting trip. Neither can be obtained while on board the cars or steamships and at such places it is most likely to be needed. The safe way is to have with you. adv.

In the whole field of medicine there is not a healing remedy that will repair damage to the flesh more quickly than BALLARD'S SNOW LINIMENT. In cuts, wounds, sprains, burns, scalds and rheumatism, its healing and penetrating power is extraordinary. Sold by Price Drug Co. adv.

You'll enjoy the
sport of rolling
'em with P. A.!

Prince Albert is sold in tippy red bags, tidy red tins, hand-some pound and half pound tin humidors and in the pound crystal glass humidors with sponge moistener top.

PRINCE ALBERT
the national joy smoke

It was time
to wake up, all right

MY BRAIN was busy.
BUILDING AIR castles.
FOR I wasn't sleepy.
FINALLY I dozed off.
AND PROMPTLY dreamed.
THAT I was awake.
BUT WOKE right up.
AND FOUND I was asleep.
THEN I got thinking.
OF A wonderful formula.
FOR MAKING cigarettes.
I PLANNED it all out.
SO MUCH Turkish tobacco.
BLENDED JUST so with Burley.
AND OTHER Domestic leaf.
AND I knew that blend.
WOULD MAKE a hit.
I COULD just see.
CROWDS OF happy people.
THRONGING INTO stores.

TO BUY that cigarette.
THEN LIGHTING up.
SMACKING THEIR lips.
AND SAYING, "Oh, Boy.
IT'S THE exact copy.
OF THAT 'Satisfy' blend."
AND THEN I came to.
AND SAID to myself.
"THIS TIME you're dreaming.
FOR SURE.
WAKE UP, you darn fool.
WHY, THAT 'Satisfy' blend.
SIMPLY CAN'T be copied."

THAT'S a fact—the "Satisfy blend" can't be copied. It's our own secret—putting those good tobaccos together in a way that gives you every last ounce of their fragrance. You'll smack your lips over Chesterfields. And remember—you can't get "Satisfy" anywhere else.

THE "OLD RELIABLE"

THEDFORD'S BLACK-DRAUGHT

White Haired Alabama Lady Says She Has Seen Medicines Come and Go But The "Old Reliable" Thedford's Black-Draught Came and Stayed.

Dutton, Ala.—In recommending Thedford's Black-Draught to her friends and neighbors here, Mrs. T. F. Parks, a well-known Jackson County lady, said: "I am getting up in years; my head is pretty white. I have seen medicines and remedies come and go but the old reliable came and stayed. I am talking of Black-Draught, a liver medicine we have used for years—one that can be depended upon and one that will do the work."

"Black-Draught will relieve indigestion and constipation if taken right, and I know for I tried it. It is the best thing I have ever found for the full, uncomfortable

feeling after meals. Sour stomach and sick headache can be relieved by taking Black-Draught. It aids digestion, also assists the liver in throwing off impurities. I am glad to recommend Black-Draught, and do, to my friends and neighbors."

Thedford's Black-Draught is a standard household remedy with a record of over seventy years of successful use. Every one occasionally needs something to help cleanse the system of impurities. Try Black-Draught. Insist upon Thedford's, the genuine.

At all druggists.

G. 23
